Display

The keypad has a bright two-line liquid crystal display (LCD). It uses words, numbers, and symbols to show the status of the security system. When several events occur, the keypad shows each event in order of priority.

Status indicators

The Status indicators provide a quick visual reference for you to see how your system is operating.

Part On status

Green - Ready to turn Part On (part arm). Red - Part On (part armed).

Power

Blue - AC power present.

Trouble

Yellow - A Trouble condition exists.

All On status

Green - Ready to turn All On (arm). Red - All On (armed).

Function keys

When pressed, these keys turn on keypad backlighting and emit the keypress tone (short beep).

PREVIOUS and NEXT

Use these keys to scroll through lists and text.

ENTER

Use the [ENTER] key to complete the entry of your passcode, to select a menu item, or to answer Yes to a keypad request.

ESC

The [ESC] (Escape) key has two uses. First, use the [ESC] (Escape) key to exit from menus and functions. Also, use the key as a backspace when you enter names and numbers.

CMD

Use the [CMD] key in combination with one or two number keys to perform select functions.

Keypad layout:

BOSCH

Area 1
Ready to turn on

PREV	ENTER	NEXT
1	2 ABC	3 DEF
4 GHI	5 JKL	6 MNO
7 PQRS	8 TUV	9 WXYZ
ESC	0	CMD

Commands

You can initiate functions with the [CMD] key plus the one or two digit command.

Use [CMD]8 to open the Main menu.

If you know the command number, press the [CMD] key and then the one or two digit command.
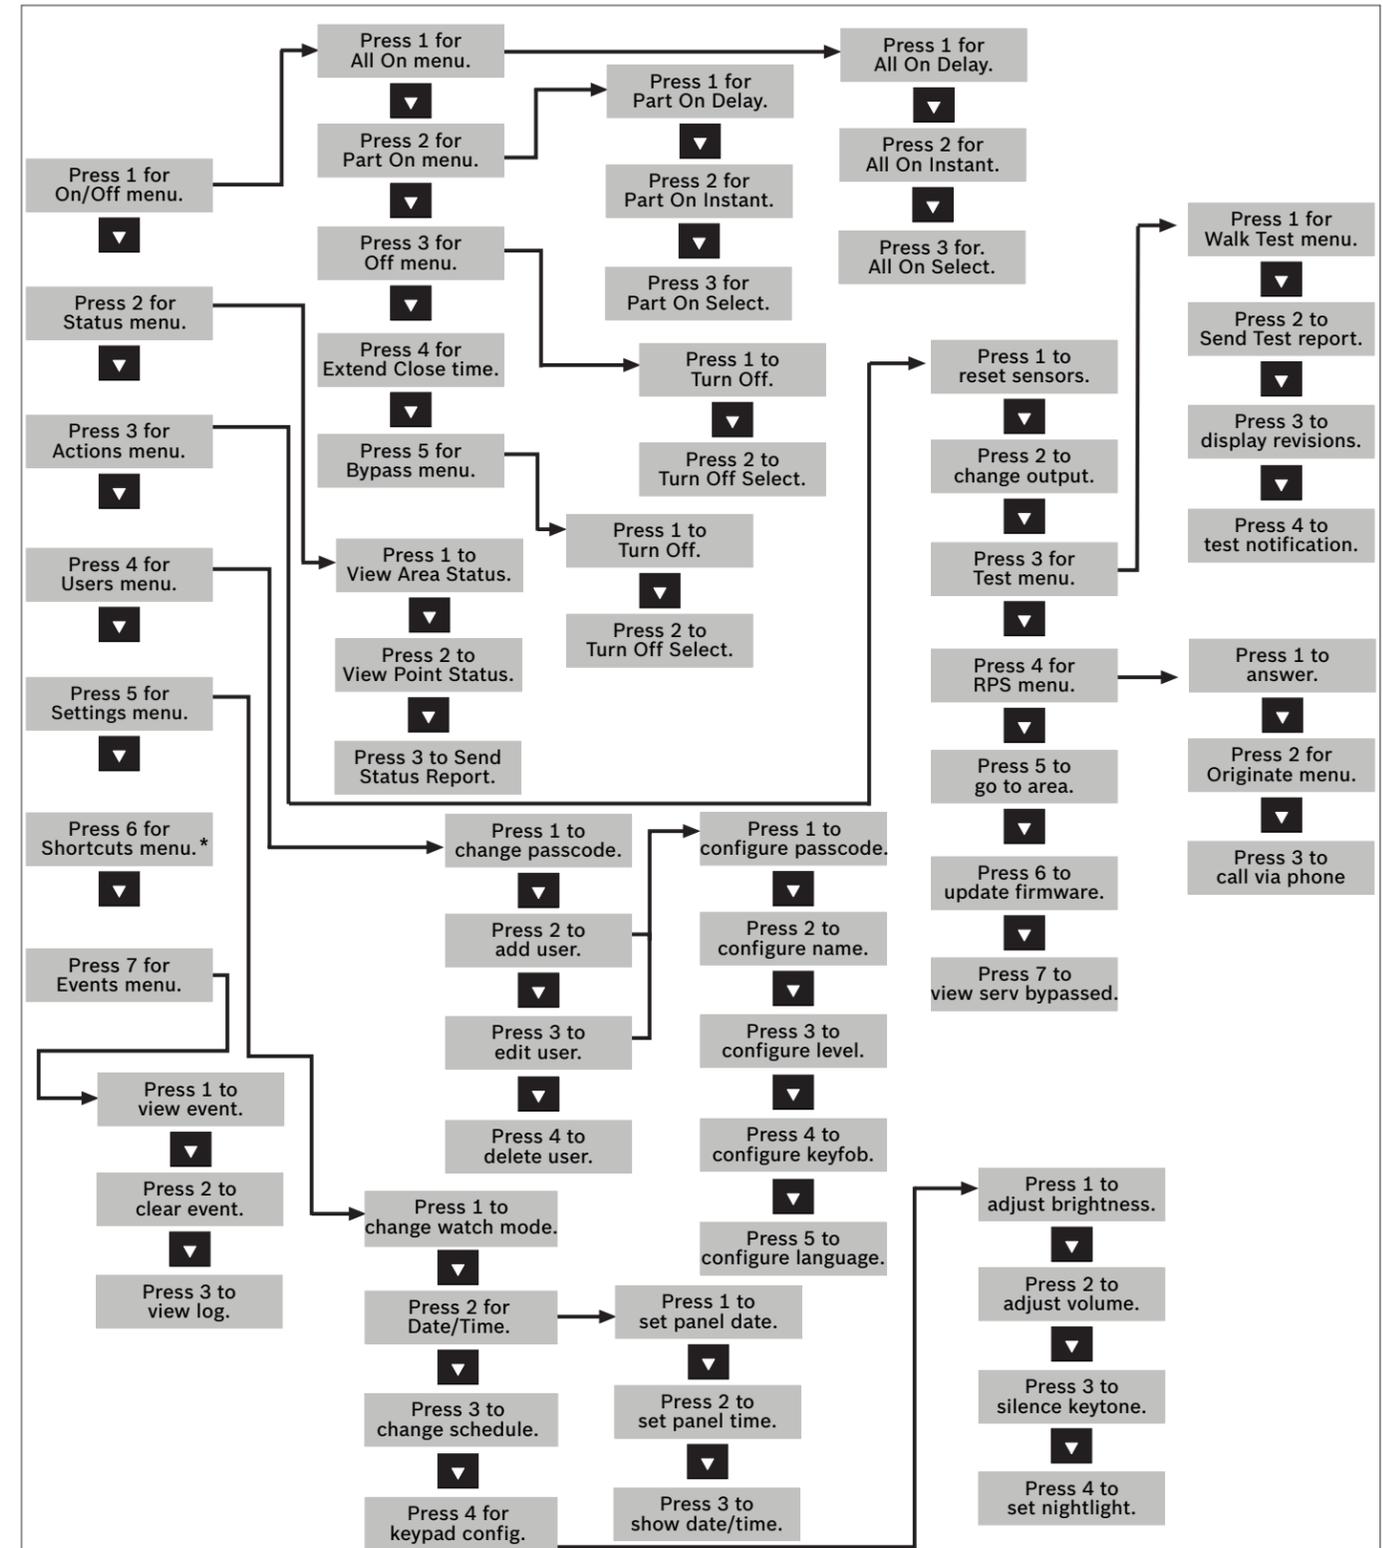

— or —

After you press [CMD], you can use [PREV] or [NEXT] to move through the list of commands. Press [ENTER] when viewing the desired command to activate it.

Command	Function
[CMD] 0	Bypass
[CMD] 0 0	Unbypass
[CMD] 1	All on (with delay)
[CMD] 1 1	All On, Instant
[CMD] 2	Part On, Instant
[CMD] 3	Part On (with delay)
[CMD] 4 0	See Alarms
[CMD] 4 7	Reset Sensors
[CMD] 5 0	Go to Area
[CMD] 5 1	Extend Close
[CMD] 5 3	Delete User
[CMD] 5 5	Change Passcode
[CMD] 5 6	Add User
[CMD] 5 9	Show Revision
[CMD] 6	Watch Mode
[CMD] 8	Open Main menu

Menu tree

The keypad offers an easy-to-use menu tree structure. To access the menu tree, press [CMD][8]. Each menu option has a number. At each level, you can press the number for the desired menu, if you know it. Otherwise, use [PREV] or [NEXT] to review your options at that level, and then press [ENTER] when you see the desired menu option. The menu tree figure shows the menu structure and the numbers associated for each menu option.

Menu tree structure:

- Press 1 for On/Off menu.
  - Press 1 for All On menu.

* Your security company programmed the Shortcuts for you.

2 | Turn on (arm) your system

You can turn on your system using different methods.
Do one of the following:

Enter your passcode and press [ENTER] to turn All On with a delay.

——————— or ———————

Use one of the available commands:
For All On: [CMD][1]
For All On, Instant: [CMD][1][1]
For Part On, Instant: [CMD][2]
For Part On: [CMD][3]

——————— or ———————

Use the menus. Begin by pressing [CMD][8] to open the Main menu.
For All On: Go to [1] On/Off > [1] All On > [1] All On Delay.
For All On, Instant: Go to [1] On/Off > [1] All On > [2] All On Instant.
For Part On: Go to [1] On/Off > [2] Part On > [1] Part On Delay
For Part On, Instant: Go to [1] On/Off > [2] Part On > [2] Part On Instant.

The menu options also allow you to choose individual areas to turn on.
Open the All On or Part On menu, press [3] to open the Select menu, and then use [NEXT] and [ENTER] to choose On Instant or On Delay and the area to turn on.

3 | Turn off (disarm) your system

You can turn off your system using different methods.
Do one of the following:

Enter your passcode.

——————— or ———————

Use the menus. Begin by pressing [CMD][8] to open the Main menu.
For Turn Off: Go to [1] On/Off > [3] Off > [1] Off.
For Turn Off Select: Go to [1] On/Off > [3] Off > [2] Off Select. Then use [NEXT] and [ENTER] to choose the area to turn off.

4 | Change your passcode

You can change your own passcode and the passcodes of other users if you have the authority to do so. Do one of the following:

Use the command:
[CMD][5][5], and then follow the prompts.

——————— or ———————

Begin by pressing [CMD][8] to open the Main menu.
Go to [4] Users > [1] Change Passcode, and then follow the prompts.

5 | Edit users

You can change passcodes for other users, and you can add, remove, and replace keyfobs and cards*.
*Cards are supported by some security systems. If your security system supports cards, the menu option is available.

5 .1 | Add users

Use the command or the menu to open the Add User option, and then follow the prompts to configure the user's passcode, name, authority level, keyfob (if desired), language (when applicable), and card (when applicable).

Use the command:
[CMD][5][6]

——————— or ———————

Use the menus:
Begin by pressing [CMD][8] to open the Main menu.
Go to [4] Users > [2] Add User.

5.2 | Edit Users

Use the menu to open the Edit User option, and then follow the prompts to configure the user's passcode, name, authority level, keyfob (if desired), language (when applicable), and card (when applicable).

Use the menus:
Begin by pressing [CMD][8] to open the Main menu.
Go to [4] Users > [3] Edit User.

5.3 | Delete users

Use the command or the menu to open the Delete User option, and then follow the prompts to delete the user.

Use the command:
[CMD][5][3]

——————— or ———————

Use the menus:
Begin by pressing [CMD][8] to open the Main menu.
Go to [4] Users > [4] Delete User.

6 | Alarms

When the security system is in alarm, the number of alarms shows on the display.
Enter your passcode to silence alarms. If the system is on (armed), silencing the alarm also turns the system off. The system now shows Alarm Silenced, and then the number of points in alarm, and the names of all the points in alarm, in the order of occurrence.

7 | Shortcuts

You can access your shortcuts through the menu:
Begin by pressing [CMD][8] to open the Main menu.
Go to [6] Shortcuts and then use [NEXT] and [ENTER] to choose the shortcut you wish to run.
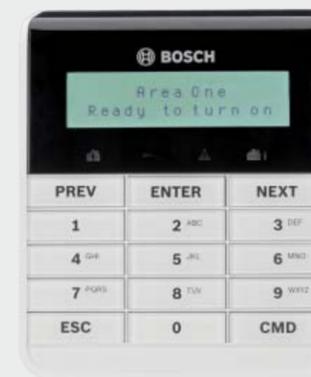

8 | Keypad cleaning

Use a soft cloth and non-abrasive cleaning solution to clean your keypad (for example, microfiber cloth and eyeglass cleaner). Spray the cleaner onto the cloth. Do not spray cleaners directly onto the keypad.
