YOUR FIRE AND SECURITY SOLUTION

GSA Awarded Labor Descriptions

Project Manager

Minimum Experience: 10 Years

Functional Responsibilities: Manages manpower, meets with customers, orders equipment and materials, and performs paperwork associated with the project.

Minimum Education: BA/BS or equivalent experience.

Fire Alarm Designer

Minimum Experience: Over 10 Years

Functional Responsibilities: This is a senior level Project manager with 10 years or more in the field and over 5 years in design/project managing with a NICET level 4 status. This status is recognized by most states and Core Of Engineers as a fire alarm system designer. This person can design a working fire alarm system in new or existing building using the codes that are required. This individual can provide drawings and advice to the customer.

Minimum Education: BA/BS or equivalent experience.

Technician/Programmer

Minimum Experience: Over 5 years

Functional Responsibilities: This individual can do all or parts of the following functions: install speakers, cabling, amplifiers, head-end equipment, cabling field jacks, splitters, cameras, digital recorders, voice and data cabling, field devices, patch panels and data racks. This individual is also responsible for programming and focusing the systems. This person can test and certify and label cabling and trouble shoot and repair most existing systems.

Minimum Education: BA/BS or equivalent experience.

Inside Wireman / Installer

Minimum Experience: Over 5 years

Functional Responsibilities: Installs Voice and Data Cabling, Field devices, Patch Panels, and Data Racks. This individual will test and certify and label cabling. They can also trouble shoot and repair problems in an existing data network.

Minimum Education: BA/BS or equivalent experience.

Shop/Delivery

Minimum Experience: Over 5 years

Functional Responsibilities: This individual orders equipment from manufacturers/vendors and schedule deliveries.

Minimum Education: BA/BS or equivalent experience.
